

Text as Data HW 1

Your Name and NetID

2/18/2020

See the HW 1 assignment for the full instructions about formatting your homework submission. Some reminders:

Make sure your Markdown output shows both CODE and OUTPUT.

If you write a function to use in multiple question parts, you only need to include the function definition one time. If you load data, create a variable, etc, that you use in multiple question parts, you only need to load the data or create the variable one time.

Do NOT include written answers as code comments in code chunks.

Using this template is not required.

```
# import libraries
library(quanteda)

## Package version: 1.5.2
## Parallel computing: 2 of 8 threads used.
## See https://quanteda.io for tutorials and examples.
##
## Attaching package: 'quanteda'
## The following object is masked from 'package:utils':
##
##     View
library(quanteda.corpora)
```

Q1a

```
# your code to compute the answer
# ** Make sure your markdown document shows both CODE and OUTPUT **
print("hello")

## [1] "hello"
```

Your written answer goes here.

Q1b

```
# your code  
print(1+2)
```

```
## [1] 3
```

Your written answer to Q1b goes here.
